

Download File PDF Hitachi Screw Chiller Manual

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

—Twin Screw Compressor Type— HITACHI Water Cooled Water Chillers — [H] SERIES —

Nominal Cooling Capacity Range :
R22: 138 kW ~ 1525 kW
119.970kcal/h ~ 1,269,500kcal/h
36.7 RT ~ 518.1 RT
R407C: 132 kW ~ 1755 kW
113,800kcal/h ~ 1,509,300kcal/h
37 RT ~ 491.1 RT

The HITACHI H series water-cooled water chillers are designed for all the convenience of chilled water air-conditioning systems, especially for hotels, stores, hospitals, modern building and process cooling applications of modern manufacturing industries. HITACHI water-cooled water chillers are equipped with newly-developed HITACHI A type semi-hermetic screw compressors, which feature higher precision and simplicity of construction by eliminating such items as pistons, connecting

rods, valve plates, oil pumps and mechanical linkages for capacity controls in the reciprocating compressors. These features result in lower noise and lower vibration, reliable long period operation, and installation feasibility on any floor of the building. The units are composed of a compressor(s), a condenser(s), a direct-expansion water cooler, a electronic expansion valve(s) and auxiliary and control equipment. The units can be operated with utmost simplicity.
